

ELECTRICAL TECHNICIAN

National Publishing Company, established in 1863, has an immediate opening for an experienced Maintenance Electrical Technician for our 24-hour book manufacturing plant.

Requires knowledge of VFD's, proximity switches and photo eyes. Must be able to read schematics and have an understanding of European wiring standards. Trouble shooting skills on PLC controlled equipment and experience with printing presses and book binding equipment helpful.

Must be able to work overtime (including weekends).

We offer a competitive salary and benefits package.

Email or Fax resume or letter outlining experience which **MUST** include salary history and requirements to:

jwhalen@courier.com
